AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-22 (Cancelled)

Claim 23-44 (Cancelled)

Claims 45-50 (Cancelled)

51. (New) A method for treating Autism, ADD (attention deficit disorder) or ADHD (attention deficit hyperactivity disorder) comprised of:

administering a CARS (childhood autism rating scale) test to determine the degree in which autism, ADD, or ADHD symptoms are present;

determining if the individual has a chymotrypsin level less than the normal fecal chymotrypsin level; and

administering digestive enzymes to the individual if the fecal chymotrypsin is less than normal.

52. (New) The method of claim 51 wherein the CARS test is repeated on a periodic basis to monitor autism, ADD, and ADHD symptoms.

53. (New) The method of claim 51 wherein the digestive enzymes comprise a pancreatic enzyme.

54. (New) The method of claim 51, wherein the normal fecal chymotrypsin level is a level of fecal chymotrypsin associated with at least one other individual of the same approximate age that does not have the disorder.

55. (New) The method of claim 51 wherein the normal fecal chymotrypsin level is approximately 8.4 U/gm.

56. (New) The method of claim 51 wherein the step of administering digestive enzymes comprises administering an amount of digestive enzymes on a daily basis, wherein said amount is determined according to the age of the individual.

57. (New) The method of claim 56 wherein digestive enzymes are administered three times per day.
